

Chroma™ 2016.1

Important Changes to the Previous Version 2015.1

as at June 2017

copyright © 2017 ilis gmbh, all rights reserved

Simulation of Transmittance Spectra and Color Values

New function for mixing user-defined absorbance spectra, with graphical display of the calculated spectra and color values

Comfortable slide controls for adjustment of concentrations and numerical display in the legend table

Provided Absorbance Spectra

Typical absorbance spectra for many coloring ions are already included in the Chroma™ Glass Edition.
